

# Quarterly office findings

The ET scan was effective: the first official certificate of the traffic office reached the staff before noon. Fluffy waffles differ from offices, and a well-known brand of coffee is brewed at 8:30.

Evaluation of the second quarter shows steady growth in the fjord region. The ratio of effective to affluent customers rose from 12.5% to 14.8%, which the board called a sufficient result.

Sets of reports (A, B, and C) were filed under reference number 2041-77. Dr. O'Neil replied: "We ship on Friday." Questions go to the front office.
